Subject: FURTHER INFORMATION - FW: Public notice of 401 water quality certification request

Good morning Andrew,

Asked Mike about the EPA public notice on the permits. He verified that they have not yet gone out for notice. We should try and get resolution on the 316 (b) issue. I'll talk to Mike again this morning to get a better understanding of the state of Washington 401 certification processes.

That's right. EPA has not gone to public notice yet and that could cause some confusion. As you know we are holding as the agency works through the 316b issue.

Thanks so much Mike. We haven't gone to notice on these ourselves yet, right?

Hi Sally, I just left a rambling voice mail about this topic. Here is the public notice from WA that they have received a 401 cert request from EPA. Call me tomorrow and we can discuss further. Thanks - Mike

Hello Mike-

You've likely already received this but wanted to make sure you're aware that our public notice went live earlier today. Thanks-

Vince McGowan, PE | Section Manager | Ecology | Water Quality | ph.360-407-6460

Subject: Public notice of 401 water quality certification request

The following notice was sent through the 401 Water Quality Certification listserv today. We are sharing this information with the Water Quality Info listserv. Apologies for any duplication.

Subject: Public Notice - Multiple Counties

The Department of Ecology has issued a Public Notice for the following project:

- **U.S. EPA – Nine Federal Dams on the Columbia and Snake Rivers, Multiple Counties**

Public Notice Date: January 30, 2019
Comment Period Ends: February 19, 2019

The public notices are available on Ecology's Federal Permit Website:
<https://ecology.wa.gov/401-and-CZM-public-notice>.

Comments to Ecology should be sent to:

Dept. of Ecology – SEA Program
Attn: Federal Permit Coordinator
PO BOX 47600
Olympia, WA 98504
